Dear Hiring Manager, I am writing to express my keen interest in the **Data Science & Artificial Intelligence & Machine Learning** role in *Your Company*. **I hold a Bachelor Of Computer Application From Veer Narmad South Gujarat University, I have completed a certification data science training from Boston Institute of Analytics,** With a strong foundation in data science and machine learning, coupled with hands-on experience from **internships at Zidio Development and First Quadrant Labs**, I am confident in my ability to contribute meaningfully to your team. During my internships, I honed my skills in data handling, addressing missing values, and executing machine learning tasks at zidio development, I played a pivotal role in the "Face Punching System" project, delivering results that exceeded expectations and received positive feedback. My ongoing tenure at First Quadrant Labs has further deepened my expertise, particularly in predictive modeling, as demaonstrated by projects like "Sleep Disorder Prediction" and "Accident Severity Prediction."Where I developed a strong academic foundation in programming and analytics. complementing my education, further solidifying my technical proficiency in python, machine learning, and data analytics. I would welcome the opportunity to discuss how my background and experiences align with the needs of your team. Thank you for considering my application. I look forward to the possibility of contributing for your company success.

Best regards,
Dhruvil Sheladiya.

PROFILE

Motivated and detail-oriented Data Science professional with hands-on experience in machine learning, data analytics, and project implementation. Proficient in Python and skilled in handling data preprocessing, predictive modeling, and developing impactful solutions. Completed internships at First Quadrant Labs (6 months, ongoing) and Zidio Development (2 months).

WORK EXPERIENCE

■ 7/2024 - 01/2025

First Quadrant Labs | London, UK

Data Science

- Completed a 6-month on job training at First Quadrant Labs, focusing on data science and machine learning tasks, including data preprocessing, handling missing values, and building predictive models.
- Actively contributing to ongoing projects and enhancing practical knowledge in analytics and machine learning.

■ 9/2024 - 11/2024

Zidio Development | Bangalore, India

Data Science & AI/ML - Internship

- Completed a 2-month internship at Zidio Development, where I worked on data handling, managing missing values, and implementing machine learning tasks. Successfully developed the "Face Punching System" project, receiving positive feedback for its performance and practical application.
- This experience enhanced my ability to handle complex data science challenges and apply advanced algorithms to derive meaningful insights.

EDUCATION

2/2024 - 8/2024

BOSTON INSTITUTE OF ANALYTICS

- Data Science & AI/ML
- Capstone Project:-
Accident Severity Prediction

2021-2024

VNSGU UNIVERSITY

- Bachelor of Computer
Application
- CGPA: 6.64%

SKILLS

Soft Skill:-

- Communication Skill
- Problem-Solving
- Critical Thinking
- Collaboration & Teamwork

Technical Skill:-

- Python
- Machine Learning
- Deep Learning
- LLMs
- SQL
- Excel
- NLP

PROJECTS

- Osteoporosis Risk Prediction
- Face Punching System
- Sleep Disorder Prediction
- Crime Hotspot Detection
